

TOTO

Visiting the TOTO Museum

The TOTO Museum was founded to commemorate TOTO's 100th anniversary. It showcases the history of the company's efforts to create comfortable lifestyles (admission free of charge).

Have fun learning about the development of plumbing and lifestyle at TOTO Mm.

TOTO was established in 'Kokura', Kitakyushu in 1917. At a time when most of Japan was still without sewers, TOTO started with the will of bringing healthy, cultured lifestyles to the Japanese people. Enjoy tracing the development of Japanese lifestyle, featuring abundant plumbing-related materials including toilets.

Showcasing the history of plumbing from ancient era until today.

Organized display of the development history of TOTO products, such as ceramic sanitary ware and faucets.

Products marketed all over the world including Asia, the Americas, and Europe, are on display.

You can see unique exhibits such as miniature samples used when there were no showrooms.

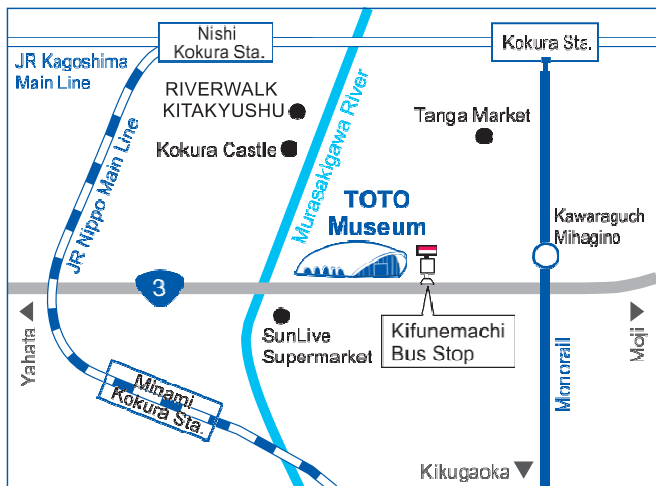

You can even sit on some exhibits and experience the feel.

Free audio description service with 'Audio Pen' in English, Japanese, Chinese and Korean.

* As number of Audio Pen is limited, lending may not be possible.
