(2) To ensure operational decisions and business execution in compliance with relevant laws and regulations and TOTO's Articles of Incorporation, TOTO has a Board of Directors and an Audit & Supervisory Committee, and retains independent accounting auditors.

The Board of Directors, emphasizing fairness, objectivity, and transparency, has appointed five Outside Directors who are independent of the TOTO Group. The Outside Directors give various advice and make proposals on our overall management.

The Audit & Supervisory Committee audits the business execution of Directors and consists of four members, including three outside members. We have built a system to ensure their effective audits through their attendance of major meetings, including Management Committee, and the exchange of opinions with Directors who are not Audit & Supervisory Committee Members on a regular basis.

(3) To complement audits by Audit & Supervisory Committee and independent accounting auditors and to build a stronger internal control system, we have established the Internal Audit Office in-house, which is independent of operational divisions. With the establishment of the Internal Audit Office, we have strengthened our internal audits under the direction of the President.

Audit & Supervisory Committee, independent accounting auditors and members of the Internal Audit Office carry out audits as a three-party audit team. In addition, we strive to enhance the quality and effectiveness of audits through close collaboration among the three parties, which involves reviewing audit results by Audit & Supervisory Committee Members and exchanging information at meetings, among other activities.

<Supplementary Principle 4.11.3: Summary of Analysis and Evaluation Concerning the Effectiveness of the Board of Directors> [Updated]

The roles of the TOTO’s Board of Directors include decision-making in favor of stakeholders, mutual supervision of the execution of the duties of the Directors, the formulation of an execution and supervision system for more equal and fair management, as well as the determination of basic management policy, such as the common philosophy of the TOTO Group, mid-/long-term management plan, and the annual policy that becomes a foothold. With these roles, at meetings of the Board of Directors, the Board annually confirms the status of corporate governance and analyzes and evaluates its effectiveness and appropriateness, as well as the effectiveness and appropriateness of the Company’s corporate governance system.

To ensure that candid opinions are gathered from all board members and objective analyses are made in the analysis and evaluation process, a questionnaire survey has been regularly conducted and its collection and analysis of the result are outsourced to an external organization.

At the meeting of the Board of Directors in March 2024, all participants, including outside directors, evaluated Board activities based on the roles defined in the company, as well as progress on issues as recognized through the questionnaire survey conducted on all Board members in the evaluation of effectiveness in FY 2022, the effectiveness of the Board of Directors from the perspective of the operational status of the internal control system, the agendas of the Board of Directors to define the general direction, including corporate strategy, and related items of the Board of Directors based on the corporate governance code along with the questionnaire results.

The results of these analyses and evaluations concerning the effectiveness of the Board of Directors as a whole are as follows:

- (1) In accordance with the Basic Policy for Development of Internal Control System, the system ensures that the execution of Directors’ duties complies with the laws and regulations and the articles of incorporation, and all other items are operated positively.
- (2) Matters to be resolved at Meetings of the Board of Directors are submitted in accordance with the relevant rules, and the system is so operated that the status of the execution of significant deals, such as matters to be resolved at Management Committee meetings, is reported to the Board of Directors.
- (3) All items of the corporate governance codes are properly satisfied, including the gender diversity of the board composition, as well as the appointment of at least the one-third proportion of the director candidates as outside directors.
- (4) To cope with the issues recognized through the questionnaire survey, measures will be promoted for planned development aimed at the promotion of female and international human resources for board membership, including executive management training and other initiatives for the enhancement and upgrading of the next-generation population.

From the above, we have confirmed that the operation of the Board of Directors is functioning properly and its effectiveness is ensured. We will continue to implement activities to allow for active discussions and continue conducting questionnaire surveys on a regular basis for the purpose of ensuring that candid opinions are gathered from all board members and improving the issues found from the questionnaire results to ensure the effectiveness of the Board of Directors and further increase its functions.

<Supplementary Principle 4.14.2: Training Policy for Directors>

In addition to the aforementioned, Directors hold internal training sessions for new Directors (education on various laws and regulations, including the Companies Act) to further understand their required roles and duties, and participate in external seminars at the time of new appointments. Upon appointment, Directors and Audit & Supervisory Board Members strive to obtain the necessary skills and knowledge, mainly through attending seminars as necessary and twice a month opportunity to discuss issues among all of the Directors and Executive Officers.

The President, Executive Vice President, and Executive Officer in charge of IR mainly deal with this matter. Evaluations and requests from shareholders and investors are shared across the Company and are used as a source of information to ensure improvements in management.

TOTO discloses the purpose of its communications and policy on responses to investors in the TOTO Group Communication Policy. For domestic and overseas shareholders and investors, IR Policy is also established to ensure transparency and fairness. Additionally, please see “2. IR Activities” of “Implementation of Measures for Shareholders and Other Stakeholders” in this report.

[Action to Implement Management that is Conscious of Cost of Capital and Stock Price]

In addition, with an awareness of capital cost and stock price, we will strengthen efforts to improve return on capital and secure growth potential, and aim for an ROE of 10% or higher to exceed cost of shareholders' equity. Compensation determination processes for Directors (Excluding Directors who are Audit & Supervisory Committee Members)

TOTO resolved a policy determining the compensation for Directors at the board meeting held on June 24, 2022. As for the resolutions, we consulted with the Compensation Advisory Committee on the contents and received a report in advance.

We confirmed that the compensation for Directors (Excluding Directors who are Audit & Supervisory Committee Members) and their determination processes are in accordance with the Basic Policy on Directors' Compensation after reviewing the compensations for individual Directors (Excluding Directors who are Audit & Supervisory Committee Members) in this fiscal year from diversified perspectives at the Compensation Advisory Committee meeting. The Board of Directors respects the report from the Compensation Advisory Committee and believes that the compensation is in line with the basic policy.

The Board of Directors has delegated its authority to determine the following for Directors (Excluding Directors who are Audit & Supervisory Committee Members)' compensation to the President, Representative Director Noriaki Kiyota.

- Monthly basic compensations for each position
- Bonus (in aggregated amount) allocation reference points for each position
- Whether or not to make individual bonus reduction assessment, and the details if it is made
- Allocation criteria for each position for stock compensation

The reason for the delegation is that we decided the chief execution officer, Representative Director, is suitable to appropriately evaluate the performance of the Directors, who direct and supervise the operations of their departments in a comprehensive manner while considering corporate-wide performance. As for the execution of delegated authority, determination by the President, Representative Director Noriaki Kiyota on Directors' compensation must be discussed with the Compensation Advisory Committee, which then must ensure and report that the decision process and allocation balance are reasonable and objective and are in line with the Articles of incorporation, resolutions of General Meetings of Shareholders, and the Basic Policy for Directors' Compensation.

Compensation determination processes for Directors who are Audit & Supervisory Committee Members

As for Compensation for Directors who are Audit & Supervisory Committee Members, only base compensation shall be paid.

The base compensation for individual Directors who are Audit & Supervisory Committee Members is determined depending on his/her duties and responsibilities upon consultation with Directors who are Audit & Supervisory Committee Members.

The amount of bonus	Multiply the following payment factor* related to the Social value, Environmental value index by 0.15% of the immediately preceding fiscal year's consolidated operating income. *The payment factor for the social value and environmental value indexes is the total value (the upper limit of the payment factor is 1.1 and the lower limit is not defined) of the target achievement rate of each index as calculated from the achievement of each annual target and shown in the table below multiplied by the weight.

3. Reasons for Adoption of Current Corporate Governance System

The TOTO Group considers that an essential aspect of corporate management is ensuring the satisfaction of stakeholders and constantly expanding corporate value by improving objectivity and transparency in management and by clarifying management responsibilities. To achieve this, for matters requiring management decisions, TOTO recognizes the importance of systematizing “who makes decisions about what and where” as well as “what checks are implemented” in a fair and honest manner.

- Reinforcing supervisory and auditing functions (nomination of highly independent Outside Directors and Outside Members of the Audit & Supervisory Board)
- Strengthening decision-making functions (establishment of the Management Committee and the like)

In June 2022, TOTO became a Company with an Audit & Supervisory Committee, in order to further enhance the supervisory and auditing functions of the Board of Directors, while improving the speed and efficiency of decision-making on business executions by granting Directors who are Audit & Supervisory Committee members voting rights at meetings of the Board of Directors. Supplementary Explanation

<Basic policy regarding persons who control decisions on TOTO's financial and business policies (overview)>

TOTO believes that persons who control decisions on its financial and business policies should fully understand the business characteristics of the TOTO Group and the sources of TOTO's corporate value, and be able to ensure and enhance its corporate value and the common interests of shareholders from a medium- to long-term perspective.

Since its founding in 1917, TOTO has consistently pursued the implementation of its philosophy to "contribute to the betterment of society" through its business operations. Among the efforts for creating and offering an enriched and more comfortable lifestyle and culture built on its plumbing products, TOTO has carried out comprehensive business activities to create and provide corporate value through long-term investment in necessary facilities and personnel as well as continuous R&D and market development efforts. Such comprehensive activities include the development of power and water-saving technology that promotes "care for the environment" as well as raw materials that allow realization of "cleanliness and comfort" and "universal design," and before- and after-sales service programs that provide "safety and security" in the Japanese markets.

Currently, TOTO is fulfilling its responsibilities for the supply of bathroom and kitchen fixtures as a result of establishing itself in the Japanese market for such products. We are also endeavoring to further increase our value through the development of global markets, mainly Americas and Asia, by making full use of the business model that TOTO has established in the Japanese market. TOTO's continuous and extensive contribution to the betterment of society for nearly 100 years since its founding has secured the current corporate value and interests of shareholders.

We as a public company are obviously obligated to allow our shares to be traded freely, and we believe that it should be left to the best judgment of our shareholders to finally determine whether to accept an offer to purchase a large quantity of the Company's shares by a certain person or certain group of persons. Nevertheless, if we judge that such a bulk purchase of the Company's shares may result in significantly undermining our corporate values and thus the common interests of shareholders, we believe it is necessary to take the necessary and appropriate action to ensure the protection of the Company's long-term shareholder value.
